**Agenda and Timeline:**

- There are plans on promoting it to members and local planning authorities through regional events. Such events have not been developed (we are waiting for the service contract to be finalised).
- MB has already developed a programme for the LGA and it has sold out. There is possibly a need to repeat.
- RTPI have also shown an interest in training and it could feature as part of that too.

A review of the existing version should take place during the summer of 2020.
